

## Earth Rod

### PRODUCT SPECIFICATIONS

Earth Rod

Technical Data	
Earth Rod Length	5 ft
Diameter	14 mm
Thread	5/8' BSW (both sides), Thread length: 25mm top-end, 33 mm bottom-end
Connector / Clamp Type	6AANI Thread type clamp
Key Features	Very low resistance due to high conductive copper plating.
	Can achieve lower earth resistance due to longer length.
	Chamfered drive-end for easy driving to ground saves installation time.
	Non-hazardous and long life.
	Higher strength threads formed from roll threading process.
Material Overview	
Material	Copper plated steel

## Brass Earth Clamp

### PRODUCT SPECIFICATIONS

General Data	
Key Features	Made out of pure Brass.
	Well connecting the Earth Wire with the Rod.
	Highly spacious clamp facilitates easy & well mounting of the rod.
Dimensions	
Inner Spacing of the Clamp	19 mm
Wall Thickness	3 mm
Screw Thread Diameter	9 mm
Material Overview	
Material	Brass
